

THE AUTHENTIC LEADER

A special event hosted by Leaders in Action

Hear International Board of Directors Member David Fisher

"An authentic leader is respected for who they are and not what kind of leader they are. People watch leaders and are constantly forming opinions. We trust authentic character. It is powerful and inspirational. Connecting as an authentic leader means engaging with our community. This session delves into the qualities of presence recognisable in authentic leaders." David Fisher, Toastmasters International Board of Directors

David Fisher has progressed through the Toastmasters leadership track and has taken on every club executive position, served in capacities of Area Governor & Division Governor, and worked his way through to District Governor of District 70 in 2014- 2015. In August 2016, David was elected to the International Board of Directors for a two-year term, an achievement he puts down to serious preparation and wonderful teamwork.
